SUMMARY

I am an undergraduate in Computer Science and Engineering at the University of Moratuwa, with 2 years of professional software development experience. I specialize in exploring and transforming human intelligence into innovative end-user product

WORK EXPERIENCE

Associate Software Developer (remote / part-time)

Jan 2023 - Jan 2024

SenzMate IOT Intelligence PVT Ltd

- Contributed to the development of new requirements for the SenzAgro Web and Mobile Apps.
- Developed Ansible playbooks for the automated deployment of Spring Boot and Angular applications.
- Contributed to an outsourced project, resolving frontend issues for the Incognito Monetization and Analytics Web Platform.
- Conducted research and development on implementing microservice architecture.
- Technologies: **Spring Boot, MongoDB, React JS, React Native, Ansible, Azure VM, Backbone JS**

Intern Software Developer -

Jan 2022 - Dec 2022

SenzMate IOT Intelligence PVT Ltd

- Contributed to the development of new requirements for the SenzAgro Web App and Mobile app.
- Deployed the OrangeHRM software on an Azure VM as part of the company initiative to evaluate its suitability as their human resource management system.
- Implementation of the SafePress Web Platform Proof of Concept (POC).
- Technologies : **Spring boot , MongoDB, React JS , React Native, Jenkins , Azure VM**

EDUCATION AND QUALIFICATIONS

BSc. Hons. Engineering. Computer Science and Engineering

2022 - present

CGPA-3.98 /4.00 (Deans list in all semesters)

University of Moratuwa (3rd year)

Full Stack Web Development -

Dec 2020 - May 2021

Robust 6 months full stack development training course .

Uki Coding school , Jaffna

Advanced Level

May 2018 - Dec 2020

Physical Science - 3A

D.S .Senanayake College, Colombo 7

PROJECTS

Semester Projects

ECG signal Analysis Dashboard (semester 5 /ongoing) -

Developed an interactive web-based dashboard, utilizing state-of-the-art machine learning models for arrhythmia detection, myocardial infarction detection, and a customized robust person identification model that is immune to signal distortions.

- **Technologies used : Python, Streamlit , Neurokit2 , Scipy, Pytorch**

BAirlines(semester 3/Database Management Systems Project) -

A Web based flight booking management System .

- Technologies used :**React JS , NodeJS, MySQL**

External Projects under Lecturer Supervision

Road Accidents Dataset Analysis (Supervisor -Dr. T. Uthayasanker) -

Descriptive Analysis Of Road Accidents Dataset from the Northern Province.

- Technologies used : **PyData Stack**

Smart Renewable Energy Dataset Development (Supervisor - Dr. R.M.S. Rathnayake / ongoing)

Publishing a dataset collected and aggregated from the microgrid powered by solar photovoltaic system, lithium-ion battery energy storage system, and a diesel generator utilizing protocols like MQTT. I am responsible for collecting the data through MQTT and Data Preprocessing .

External Projects

ShopMedia -

“Idealize” mobile app competition Project.

- Mobile app platform for businesses to showcase their Business.
- Technologies used : **React Native and Firebase**
- View In : <https://play.google.com/store/apps/details?id=com.shopmedia>

DE-COM-TECH -

Full Stack web development course final project

- An online platform designed to foster community development, offering tools such as chat, video conferencing, event showcasing, and integrated payment gateways. The platform also enables communities to collect donations directly, supporting their growth and sustainability.
- Technologies used : **HTML5, CSS, JavaScript, ReactJS, Material UI, Spring Boot, Maven, Java, MongoDB.**

TECHNICAL SKILLS

PROFESSIONAL SKILLS

Spring Boot	Java	Linux	Team work
NodeJS	Python	Ansible	Communication skills
React JS	Javascript	Docker	Time management
MongoDB	C++	Jenkins CI/CD	Analytical skills
MySQL	Azure cloud		
Git	Scrum		

CERTIFICATES

EXTRA-CURRICULAR

Coursera.org - 
FreeCodeCamp - 
Sololearn - 
Kaggle - 
AWS- 

Scouting (District Commissioner's Award)
Computational Intelligence Society IEE Student chapter
- Assistant Secretary

REFEREES

Dr. Uthayasanker Thayasivam

Head of Department , Senior Lecturer
Department of Computer Science and Engineering
University Of Moratuwa
